# ABOUT US

Travan Autocontrols has been a trusted name in automation and access solutions since 1995, originally known as Travancore Enterprises. In 2021, we rebranded to reflect our expanded expertise and commitment to innovation in a fast-evolving technological world.

- **Security & Access:** Automatic Gates, Boom & Spike Barriers, Access Control Systems
- **Industrial Efficiency:** Hi-Speed Doors, Rolling Shutters, Dock Levelers & Shelters
- **Hygienic Automation:** Automatic Doors & Hand Dryers

With decades of experience and cutting-edge technology, we don't just deliver products—we deliver reliable systems that ensure safety, efficiency, and peace of mind. Together, let's build smarter, safer, and more efficient environments.

## Mission

To empower every individual with safety and security through innovative, state-of-the-art solutions

## Vision

To lead the market in security and automation systems, setting new benchmarks for quality, reliability, and affordability.

## Value

We don't just adopt technology; we pioneer solutions that genuinely solve problems. Every innovation is measured by its ability to enhance your safety and simplify your life.

# OUR BEST PRODUCT

## Automatic rolling Shutter

Travan Autocontrols offers advanced automatic rolling shutter solutions designed for seamless operation, enhanced security, and long-lasting performance.

## Automatic Sliding Gate

Automatic Sliding Gate delivers smooth, secure, and space-saving access for industrial and commercial spaces.

## Automatic Boom Barrier

The Automatic Boom Barrier by Godsmove Motors offers efficient vehicle access control for residential, commercial, and industrial premises.

## Automatic spike Barrier

The Automatic Spike Barrier by Godsmove Motors provides advanced security by preventing unauthorized or forceful vehicle entry.

## Automatic Glass Door

The Automatic Glass Door combines elegance with advanced functionality for smooth, hands-free entry. Ideal for commercial buildings, showrooms, etc.

## Automatic Swing gate

Built with robust materials and integrated safety features, it supports both single and double-leaf configurations.

## Access Control System

The Access Control System by Godsmove Motors ensures secure, authorized entry to restricted areas through advanced authentication methods like RFID, biometric, keypad, or card access. Ideal for offices, factories, apartments, and sensitive zones, it offers real-time monitoring, user management, and audit trails.
